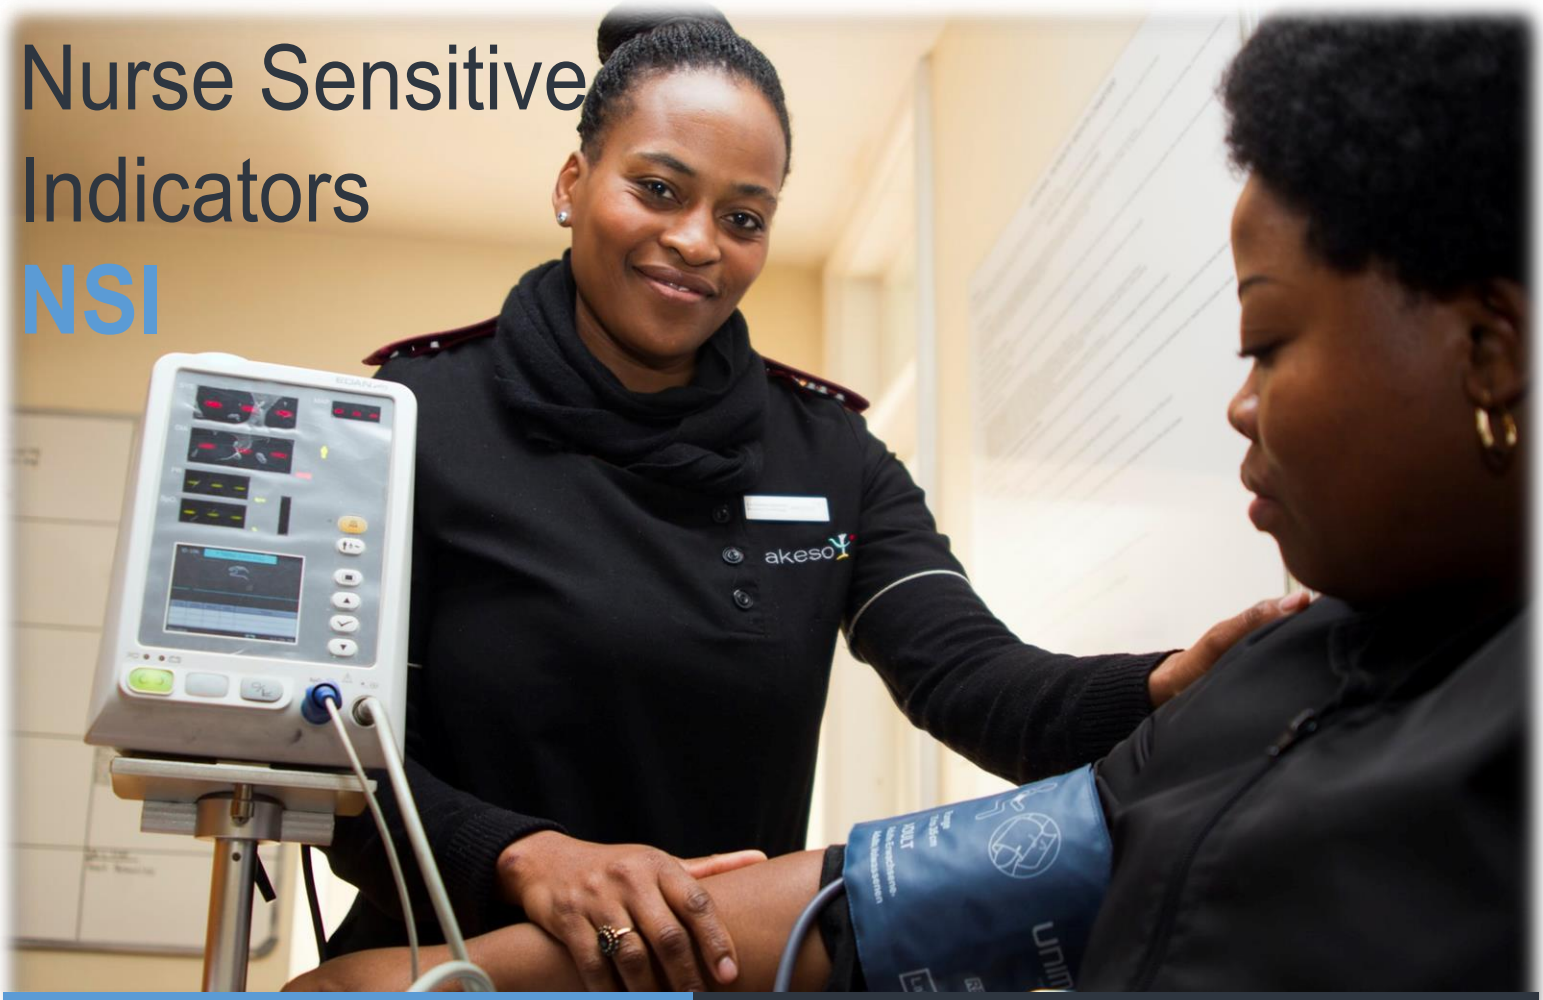
Nurse Sensitive Indicators

NSI



NSIs ASSESS, EVALUATE, AND ARTICULATE THE VALUE OF AMBULATORY CARE NURSING .

Why NSIs?

- Standardizes measurements of care and care processes
- Bases care on evidence
- Measures, evaluates, and improves nursing practice
- Measures elements of patient care and patient outcomes directly affected by nursing practice
- Improves processes and communication across levels of care
- Provides the ability to benchmark across organizations

aacn American Academy of Ambulatory Care Nursing

Many settings. Multiple roles. One unifying specialty.

INDICATORS AVAILABLE FOR PRESS GANEY/ NDNQI BENCHMARKING REGISTRY

STRUCTURE

Nursing Care Hours
Nurse turnover
